

Your Highness

I call on you to immediately and unconditionally release Ahmed Mansoor and to quash his sentence and conviction, as he has been imprisoned solely for his peaceful human rights activism.

Pending his release, he should be detained in conditions that comply with international standards and must not be subjected to torture or other ill-treatment. He must be granted immediate and regular access to his family and any healthcare he may require.

Yours sincerely

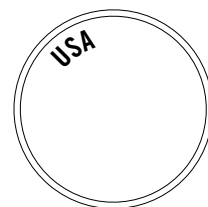

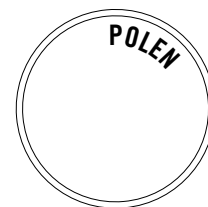

Dear Governor

I urge you to use your power to grant clemency to Rocky Myers and commute his death sentence. Rocky Myers's trial was flawed, with inconsistent testimonies and allegations of police pressure. One key witness against him later recanted his testimony, stating that he had lied. The overwhelmingly white jury recommended a sentence of life imprisonment, yet the judge sentenced Rocky Myers to death. This practice is now illegal in Alabama.

Rocky Myers was burdened with ineffective legal representation and abandoned by his post-conviction lawyer, meaning he unknowingly missed deadlines for appeal. He also has an intellectual disability. Please do not let Rocky Myers be executed.

Yours sincerely

Dear Prosecutor General

I call on you to take all necessary measures to ensure that Justyna Wydrzyńska's unjust conviction is overturned and to refrain from bringing any other charges against her for carrying out her legitimate defence of human rights.

Justyna and other activists provide essential support and trustworthy information to women seeking the healthcare they are entitled to. She was convicted for helping a woman in an abusive relationship access a safe abortion. Her conviction sets a dangerous precedent.

Yours sincerely

Dear Prime Minister

To protect the Torres Strait Islands and the human rights of First Nations Peoples, I call on your government to take adequate and human rights-consistent climate action by rapidly reducing carbon emissions in line with the world commitment of limiting global warming to 1.5°C and in line with the best available scientific research.

Your government currently states that by 2030 it will reduce emissions 43% below 2005 levels. This is not enough to save the Torres Strait Islands. Leading climate scientists on the Climate Targets Panel calculate Australia's greenhouse emissions need to be reduced by 74% by 2030.

Yours sincerely
