Dear Minister

I am writing in grave concern for Ahmad Manasra, 22, a Palestinian from East Jerusalem held in Eshel Prison in southern Israel, whose mental health has deteriorated to a life-threatening degree during solitary confinement.

I call on you to ensure the release of Ahmad Manasra so that he can access health and social services in his community.

Pending his release, Ahmad Manasra should immediately be removed from solitary confinement and given healthcare in compliance with medical ethics, including confidentiality, autonomy, and informed consent. I urge you to arrange thorough, prompt, impartial and effective investigations into Ahmad Manasra's alleged torture and ill-treatment.

Yours sincerely,
